### **REASONS FOR ALLOWANCE**

The following is an examiner's statement of reasons for allowance:

The claims are deemed allowable because the prior art does not teach or reasonably suggest a refrigerant compressor capacity control valve having a plunger positionable within a central axial bore of the control valve for controlling refrigerant flow from the discharge port to the crankcase port, a lateral plunger bore open to refrigerant pressure at the discharge port, an axial plunger bore extending from the lateral plunger bore through the second end of the plunger, an electrically operated control element secured to a second end of the plunger, and a pneumatically operated control element secured to a first end of the plunger.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry relating to patent applications in general should be directed to the Patent Assistance Center at 1-800-786-9199.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Michael Koczo, Jr. whose telephone number is 571-272-4830. The examiner can normally be reached on M-Th; 7:00-3:30.
